STRENGTHS FOR THE ROLE

- Bilingual in French and English, experienced in collaborating with international and cross functional teams.
- Full stack developer with a growth mindset. I focus on building user centric solutions that deliver.
- Proven experience in Agile environments, quickly adapting and taking ownership of projects to achieve results.
- Advocates for simplicity (simple != easy), prioritizing simple and elegant solutions over complexity and cleverness.
- Team oriented, Supportive, transparent, and results-driven. Team success is personal success.

| • React | • Bash | • GitLab/GitHub | • Node.js |
| • Contentful | • Prisma | • Python | • Cloudflare |
| • Git | • Next.js | • Flask | • Vercel |

PROFESSIONAL EXPERIENCE

Ubisoft, Paris (2024-2025)

- Developed and maintained high-traffic web services for Ubisoft's marketing sites, ensuring performance, reliability, and scalability.
- Collaborated in Agile/Scrum teams, prioritizing features and bug fixes with Product Owners and cross-functional stakeholders.
- Built React-based frontends and optimized backend architectures, reducing production incidents and improving SEO.
- Integrated analytics/tracking solutions and coordinated with external agencies for technical delivery.
- Full ownership: From coding to deployment (GitLab), with a focus on simplification, maintainability, and AI-assisted workflows.
- Collaborated with internal technical teams (frontend, backend, data, marketing) in an international environment.
- Ensured technical leadership and coordination with partner web agencies.
- Integrated and maintained tracking and analytics solutions in collaboration with the Analytics team.
- Guaranteed natural search engine optimization (SEO) of sites through technical optimization and adherence to best practices.
- Managed code versioning, reviews, and production releases via GitLab.

Results : Contributed to the reliability and performance of marketing websites, participated in reducing production incidents, and continuously improved development practices.
